

I am writing regarding the radio station K-Love. This station serves me as a resident of my local community. I, daily, listen to this station with my family, including my children. I believe this radio service is good for the public as it provides a variety of music and public interest. If K-Love were to be displaced because of an LPFM broadcaster providing other programming my family and friends would be very unhappy and upset. My family would stop listening to radio altogether. Please support K-Love, and my family's choices, by not allowing LPFM to take priority over current FM translator service. Thank you.
